

Martin (Hung) Mai

Ha Noi, Viet Nam | maphquochung@gmail.com | +84 785 334 804 | [Google Scholar](#) | [LinkedIn](#) | [Github](#)

About me

I train models, scripting code, learning new things, read and write papers every day.

Experience

AI Scientist, N2TP Technology Solution JSC – Hybrid, Ha Noi, Vietnam 10/2025 – Present

- Research on AI models. Research interest: Multimodal, Empirical Methods.
- Aiming for publications at A/A* ranked conference.

Visiting Student, Yuan Ze University – Onsite, Taipei, Taiwan 06/2025 – 8/2025

- Awarded a competitive fellowship to participate in the Taiwan NSTC International Research Internship Initiative. Under the supervision of Assistant Professor [Naeem Ul Islam](#).
- Research on enhancing Visual Robotic Arm manipulation via Reinforcement Learning. Proposed to integrate Mixture of Experts into Action Chunking Transformer in Imitation learning for the robot arm, surpassing the original ALOHA paper.

Data Scientist, Intern, VPBank – Onsite, Ha Noi, Vietnam 07/2024 – 11/2024

- Project Owner of Project ‘Smart Invoice Reader’: Carry out an end-to-end OCR project for extracting information from large enterprise invoices. In the first phase, the project managed to serve more than 300 users in the bank with an accuracy of more than 92%.
- Research and update the team on recent advances in AI technology (Text-to-Speech, Vision language models, Text-to-Image).

Research Assistant, NEU Codelab – National Economics University, Ha Noi, Vietnam 04/2023 – 06/2024

- Research about the recent trend of applying AI and ML/DL in education and NLP. Train and fine-tuning model on text semantic classification. Under the supervision of [Xuan Lam Pham, PhD](#) and [Toan Luu, PhD](#).
- Implemented a system for predicting students’ scores and an early warning system based on student behaviors. Collaborate with other organizations and groups on other AI/ML tasks and writing, and publishing paper works.

Education

National Economics University, BSc in Data Science in Business and Economics 09/2022 – present

- CGPA: 3.93/4.0
- Graduation: 08/2026

Languages

- English: 7.0 IELTS - 2021
- Chinese: HSK3 - 2023

Publications

Conference Papers

- Hung Mai (1st auth), "MEAT: Mixture of Experts in Action Transformer for Robotic Arm Control". *Proc. of International Conference on Cognitive Machine Intelligence (CogMI)*, IEEE, 2025. [Preprint](#)
- Hung Mai (3rd auth), "FinStat2SQL: A Text2SQL Pipeline for Financial Statement Analysis". *Proc. of International Natural Language Generation Conference (INLG)*, ACL, 2025. **Rank: B (CORE)**. [Original Paper](#)
- Hung Mai (2nd auth), "Efficient Vietnamese Name Detection using Highly Discriminative N-Grams", *Proc. of Asian Conference on Intelligent Information and Database Systems (ACIIDS)*, IEEE, 2025. **Rank: B (CORE)**. DOI: [10.1007/978-981-96-6005-6_24](https://doi.org/10.1007/978-981-96-6005-6_24)

- Hung Mai (2nd auth), "NEU-ESC: A Comprehensive Vietnamese Dataset for Educational Sentiment Analysis and Topic Classification", *Proc. of the International Symposium on Nonlinear Theory and Its Applications (NOLTA)*, IEEE, 2024. [Project Page](#) | [Dataset: NEU-ESC](#) | DOI: [10.34385/proc.92.A4L-B5](#)

Journal Papers

- Hung Mai (1st auth), "NEU-ESC: A Comprehensive Vietnamese dataset for Educational Sentiment analysis and topic Classification toward multitask learning". *Under review* | Preprint: [10.48550/arXiv.2506.23524](#).
- Hung Mai (2nd auth), "Efficient Vietnamese Name Retrieval using Highly Discriminative N-Grams", *Journal of Data Science and Artificial Intelligence*, vol. 4, no. 1, 2025. [Project Page](#) | [Original Paper](#)
- Hung Mai (2nd auth), "Enhancing Educational Evaluation through Predictive Student Assessment Modeling", *Computers and Education: Artificial Intelligence*, vol. 6, 2024. **Rank: Q1 (Scopus)**. DOI: [10.1016/j.caeai.2024.100244](#)

Coursework Projects

A LLMops Pipeline Approach: NEU Solution, Team Leader

[Github](#)

- A complete LLMops pipeline includes continuous data integration, continuous training, and continuous deployment.
- Tools used: VLLM, MLFLOW, AIRFLOW, Github Action, Docker, AWS, Big Query, Prometheus.

Financial Document Understanding Chatbot, Team Leader

[Github](#)

- A RAG-based chatbot that answers user questions about financial reports in the banking sector, focusing on text-to-SQL and database query architecture.
- Tools used: Azure Services, Streamlit, Prompt Engineering.

HR Chatbot, Hackathon Team member

[Github](#)

- A RAG-based chatbot that takes HR queries and returns the ranked CVs of applicants. The chatbot is chatable and can give reasoning on each CV.
- Tools used: AWS Services, Streamlit, Prompt Engineering.

Skills & Technology

Languages: Python, JavaScript, TypeScript, Java, C++ , SQL, CUDA

Machine Learning: Pytorch, Scikitlearn, Tensorflow, Triton

Database: MySQL, PostgreSQL, MongoDB, Firebase, Elastic Search

Web app: NextJS, Streamlit, ReactJS, Flask, Springboot

Other Tools: AWS, Azure Git, MLFlow, Airflow

Certificate And Awards

University Scholarship: 3/4 Excellent Merit-based Scholarships.

Data Science: WorldQuant Applied Data Science Lab Qualification (2023).

Hackathon: VPBank Technology Hackathon 2024 Finalist.

Scientific Research: Two 3rd Prizes in the University-level Student Scientific Research Competition
